

Celebrate Flag Day

The United State flag originated from a resolution adopted by the Marine Committee of the Second Continental Congress on June 14, 1777. Throughout the National Veterans Memorial and Museum, flags are exhibited to connect symbolism, independence, service and sacrifice. Commemorate Flag Day by coloring the flag, also known as the Stars and Stripes or Old Glory, below.

When you color the flags, think about what each color stands for:
White signifies purity and innocence.
Red signifies hardiness & valor.
Blue signifies the color of the Chief.

How many stripes are on the flag?

What do the stripes represent?

How many stars are on the current US flag?

Why did the number of stars change?

What three colors are used in the American flag?
